

## Commercial Film Viewing Preapproval Instructional Program

Please complete this form if you plan to show a commercially produced film to District 113A students. (Exception: Films included in the District 113A LRC inventory are exempt from this requirement.) By completing this form, the teacher certifies that he/she has previewed the film and it meets the standards of appropriateness for the student audience and the community. The teacher submits the completed form to the Building Principal or Assistant Principal prior to the intended showing date. The administrator will return the form indicating the decision about approval. In all cases, the educator showing an approved film bears all responsibility for following fair use guidelines for educational use of designated video material.
